Stompa - Serena Ryder

Intro / Verse 1   **riff   Em G | Am C-Bm :||**
People, working every night and day
Never give yourself no time
Got too many bills to pay
Slow down, nothing's gonna disappear
If you give yourself some room
To move to the music you hear

Chorus 1
Gotta get up, listen to me
Clappa your hands, stompa your feet

Verse 2
People, looking for the great escape   **add keys**
Looking for the greener side
Trying to find a better way
Slow down; open up your big brown eyes
Feel the rhythm in your heart
You don't even need to try

Chorus 2
Gotta get up, listen to me
Clappa your hands, stompa your feet
Nothing is wrong, if you move to the beat
Clappa your hands
Stompa your feet
Stompa your feet

Solo   **Em :||**

Break
When you can't seem to shake off   **C Em | Am :||**
All the feelings that are breaking
Little pieces of the music that's in you
All the pain that you feel   **C Em | G (f#) Em |**
I can prove it's not real
There's just one thing you gotta do   **A | B |**

Oh, Oh, Oh, Oh-Oh!   **Em G | Am C-Bm :||**
